

Access to AREA01

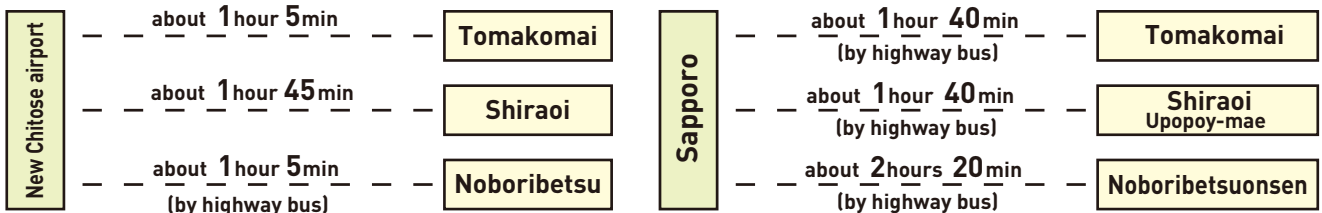

by JR trains

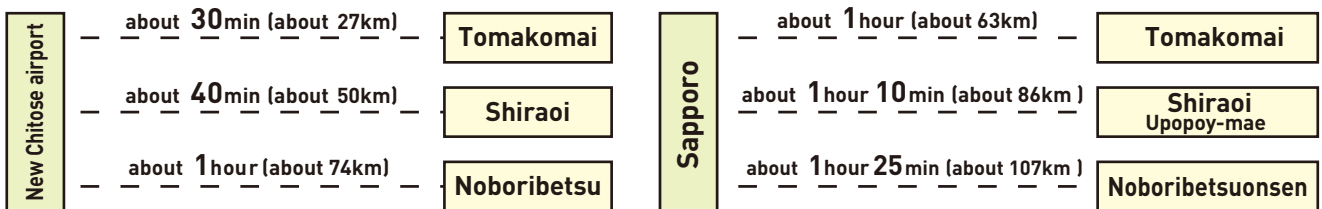

by Bus

*It takes about 15min by bus from Noboribetsu station to Noboribetsuonsen.

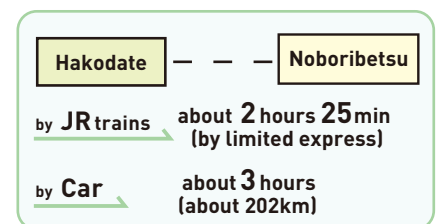

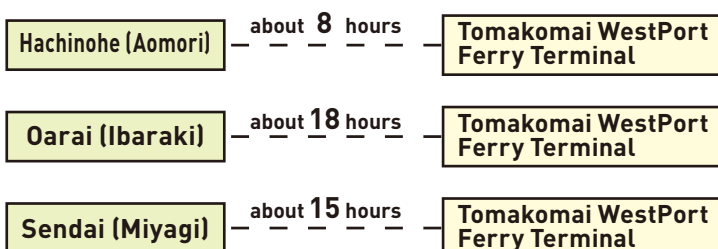

by Car

*The Tomakomai Chuo IC opened in December 2020. It's accessible to the main area of Tomakomai.

by Ferry

*Other options (from Nagoya, Akita, Niigata, Tsuruga, Maizuru)

Having double ports through the Tomakomai Port as the gateway to the seas of Hokkaido plus the New Chitose Airport as the gateway to the sky, Tomakomai is an industrial hub city with convenient transportation means such as highways and JR railways. Many companies and factories are located here. Thanks to options for factory and company tours, Tomakomai is able to offer not only highly satisfying corporate programs from education and training to corporate collaboration but also incentive tours for employees. The vast forest at the foot of Mt. Tarumae and Lake Utonai, which is registered as a wetland under the Ramsar Convention and is one of the best migratory bird relay points in Japan, are nearby and allow to enjoy the time after MICE events. With the opening of the Hokkaido Expressway Tomakomai Chuo Inter Change in December 2020, access to the downtown has become even more convenient.

Activities & attractions

Factory tours

In addition to automobile parts plants, paper mills, and state-of-the-art tree nurseries, the options from a variety of factory and plant tours related to recycling, energy, wood, food processing, and additive-free cosmetics etc. are a charm that is unique to Tomakomai, an industrial hub. The photo shows the J Farm Tomakomai Factory, which produces 'Red Jewel' mini tomatoes with a sugar content of 10 degrees or more, using a unique cultivation technology that makes full use of the latest IoT technology.

Activities & attractions

Night scenery factory tours

In addition to views during the daytime, the night scenery entwining the sights of the harbour and the factories provide a symbolic impression of Tomakomai, such as at Harumi Park where you can see the factories from the opposite side, at Kirakira Park (North Wharf) which offers a spectacular night view of the harbour, or at the 24 hours per day operating East Port International Container Terminal.

Unique venues

Hakucho Oji Ice Arena

A multi - purpose indoor stadium where many ice hockey training camps for the national team and international games are held. The ice rink is in the centre, and all seats have built-in heaters. There is also a meeting room that can accommodate up to 50 persons. Please contact the arena as it also accepts reservations for the rink for sports events on the ice.

Activities & attractions

Activities & attractions

Golf course

The area around Tomakomai City is also known as 'Golf Ginza', named after Tokyo's posh district. There are 11 golf courses in the city alone, including the Tarumae Country Club and the Hokkaido Golf Club.

Unique venues

Northern horse park

A horse theme park where you can experience Hokkaido as a horse-breeding region. The park is preparing a variety of programs such as sightseeing with horse carriages that can be easily enjoyed and full-scale horse-riding lessons for beginners. The facility can also be used as a reception venue including a barbecue.

Activities & attractions

Unique venues

Activities & attractions

Accommodation

Auto Resort Tomakomai Arten

On top of the centre house that can be used as a training facility, this facility can be used throughout the four seasons while enjoying outdoor activities such as a forest park golf course, a roofed barbecue area, canoeing, and horse riding.

Shiraoi hosts the Upopoy National Ainu Museum and Park that opened in July 2020. As a base for the reconstruction and development of Ainu culture, the museum is a must-see spot for companies promoting the SDGs. Through the traditions of the Ainu life, crafts and the Ainu view of the world, visitors will have the opportunity to learn about the efforts to realize a diverse society that Hokkaido cherishes. The area is extremely valuable not only in terms of scenery with its many remains of the Jomon period in the Kojohama area but also in terms of culture. Visitors will learn about the history and culture of Hokkaido while enjoying hot springs and the taste of Shiraoi's special products.

Unique venues

Activities & attractions

Upopoy National Ainu Museum and Park

Here you will find the National Ainu Museum, Japan's first national museum about the indigenous Ainu history and culture, and National Ainu Park where visitors can dive into Ainu culture through traditional dance performances and various activity programs as an experience-based field museum.

Activities & attractions

Sendaihan Shiraoi Former Jinya Museum

Ordered by the Shogunate in Edo (Tokyo), the Sendai Domain built this former Jinya camp in 1856 as a base for northern security to protect Ezo (former name for Hokkaido) from the threat of Russia that was expanding southwards. The site of the Jinya is registered as a nationally designated historic site, and the museum on the premises introduces the life of the feudal lords and the history of interaction with the Ainu by displaying drawings, ancient documents, and armour etc.

Shiraoi Beef

More than 60 years have passed since the introduction of Japanese wagyu beef for the first time in Hokkaido in 1954, and now it has become a representative brand of Hokkaido. It was also served at the Japan - US summit meeting during the Hokkaido Toyako Summit held in July 2008 and the Italy - Milan International Expo 'Hokkaido Day' held in October 2015. This exquisite Japanese black beef with a deep richness and mellow taste has obtained appraisals from overseas and from VIPS throughout the world.

Activities & attractions

Ayoro coast

Located in the Kojohama area, Ainu folklore continues to exist today at many sites, such as 'Ahun ruparo' (a hole in a rock hole that is said to be the entrance to the other world) and 'Osorokko' (the trace of a hero's bottom). In the neighbourhood, there are many hot spring facilities where the hot spring water flows directly from the source and shops that sell seafood specialities such as Kojohama cod roe.

More than 160 years have passed since the opening of the hot springs here in 1858. Noboribetsu Onsen is striking for the quality of its rich hot spring water with a variety of 9 source springs, water source temperatures between 45 to 90 degrees Celsius, and an abundant natural water spring volume of about 10,000 tons per day. The area is easily accessible by car from New Chitose Airport in about 1 hour and from Sapporo in about 1 hour and 30 minutes. The region stages a wide range of 'omotenashi' hospitality cultivated by the historic Yunosato and high satisfaction of participants in one of Japan's leading MICE venues.

Activities & attractions

Jigokudani Hell Valley Walk

There are so many things to see walking from the Jigokudani Hell Valley Observatory such as Tessen Pond, Yakushi Nyorai-do, and, if you climb slightly up and down the mountain path, the gourd-shaped Oyunuma Pond with a circumference of 1km. You can make your own course from a short 10 minutes' walk to much longer ones.

MICE venues

Accommodation

Noboribetsu Onsen Hot Spring Town

There are in total 20 accommodation facilities around Noboribetsu Onsen Town. The town is also called a 'hot spring department store' because you can enjoy the quality of many hot springs within one hot spring area. Why not enjoy hot spring MICE at the accommodations that each have their own elaborate style.

Unique venues

Activities & attractions

Noboribetsu Marine Park Nixe

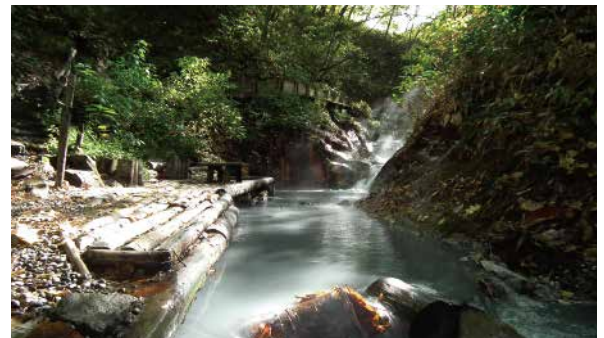

This unique theme park with an aquarium inside a castle is popular for its penguins' parade, that is held year-round. For groups and tours, there is an option to charter the whole park after it has closed. From the past, the park has a track record as a unique venue based on this charter option with additional arrangements such as catering and fireworks.

Activities & attractions

Natural footbath

There is a popular natural footbath in the immediate vicinity of Taisho Jigoku. Warm yourself up as you put your feet into the water of the river that flows out of the hot spring lake, Oyunuma. You can sit on a log or a chair and enjoy the footbath while gazing at the lush green surroundings.

Activities & attractions

Snowshoes and discover frost-covered trees

The Orofure Rime Forest is an art that only nature can create. Under the clear blue sky, take a stroll through the fantastic and pure white wonder world and experience the magnificent beauty of nature with your eyes, ears, and skin.

Activities & attractions

Demon Fireworks in Jigokudani Hell Valley

According to the legend that is handed down from generation to generation, the 'Yukijin' live in the Hell Valley. To wish for happiness and to take away people's troubles, they set demon fireworks in the night sky with the power of an eruption.

Asahikawa is the gateway city to northern Hokkaido, starting with Asahikawa Airport, which has a track record of a 99% service rate even despite regular snow, and on top of well-maintained access through JR railways and highways. It is a city where MICE venues and accommodation facilities are compactly concentrated. The Asahikawa Design Center is a symbol for craftsmanship and Asahikawa furniture, that has developed thanks to abundant forest resources, and can be used as a special venue. Many advanced companies unique to Hokkaido are also located here, and the region is excellent for training and industrial tours. There are also opportunities for business meetings through lectures by top local companies and cross-industry exchanges. While many nature resorts are nearby, you can also explore urban industrial tourism.

Unique venues

Activities & attraction

Asahikawa Design Center (Asahikawa Furniture Industry Cooperative)

The showroom of ca. 3,300 square meters is a promotion centre of Asahikawa Furniture. Here, visitors can explore furniture and interior accessories of local manufacturers matching roughly 30 companies. The centre can be used as a unique venue, and advice and consultations on furniture workshop tours are also offered.

Activities & attraction

Asahikawa Kitasaito Garden

Known as a "Train station with a river", Asahikawa Station is adjacent to a 12ha garden. With the garden directly connected to the station, it is a rarity also in Japan. Although it is an urban area that connects to the Shopping Park as a pedestrian road through the west concourse of the station, the magnificent Chubetsu River flows here to the south where the nature of Asahikawa spreads out. Visitors will notice the nearby beauty of nature while gazing at the magnificent river and the Daisetsuzan mountain range.

Unique venues

Activities & attraction

ICT Park

Opened in February 2021, the ICT Park is one of the largest e-sports facilities in Hokkaido equipped with the latest communication technology 'Local 5G'. At the Kokegaki venue where various events can be held, large LCD vision and real-time video/audio equipment are available, and it is also possible to hold plays and concerts in two-way directions in addition to e-sports competitions. The facility plans to enhance programming classes and tourism sessions that utilize VR.

Unique venues

Activities & attraction

Otokoyama Sake Brewery Museum

Asahikawa City is known for its sake brewing using underground water from Daisetsuzan. At the long-established brewery Otokoyama, there is a museum that explains sake brewing culture, which is one of the traditional industries of Japan. Valuable materials, literature, sake sets, etc. from the Edo period are on display, and visitors can see part of the sake brewing process during the preparation period. Admission is free, and the museum also offers tasting and water charging.

Unique venues

Activities & attraction

Woodworking Workshops

At Sasaki Kogei, occasional workshops are held making wooden clocks, wooden fans, door chimes, and wooden rubber guns. Sasaki Kogei also supports training trips for groups (4-40 persons).

Activities & attraction

Asahiyama Zoo

A popular zoo in the northernmost part of Japan. The so-called 'behavioural exhibition' is famous as an exhibition method that pulls out the abilities of wild animals. The zoo has a track record of conducting tours to observe the ecology of nocturnal animals while listening to the explanations from zoo caretakers at night.

Located almost in the centre of Hokkaido, this region was chosen as Japan's most beautiful starry sky thanks to its clean air and scenes unique to a valley. The colourful sceneries are the region's charm, such as the patchwork hills spreading gently from the Tokachidake mountain range, blue ponds, and lavender gardens. Wealthy travellers from overseas prize the lavender and winery-related tours, and it is also possible to take excursions to learn through farming experiences, such as the formation of beautiful rural landscapes and continuous efforts in the agricultural sector that reflect the SDGs. The Furano Nature School has a communication program that utilizes theatrical techniques and is gaining popularity for new employees- and skill improvement training. Accommodations range from resort hotels to pensions and correspond to the needs of a variety of MICE. There are many facilities where people can enjoy the local arts and culture, and organize original MICE programs that combine food, art, and nature.

Goto Sumio Museum, Furano Grill

An art museum that exhibits the works of the Japanese-style painter Sumio Goto (1930-2016), a representative of the Japanese art scene. The restaurant Furano Grill on the 2nd floor is popular for its dishes made from local ingredients. The view of the Tokachidake mountain range and the Furano Basin is outstanding.

Activities & attractions

Biei Shirogane Onsen Hot Spring

In 1950, Mr Kakuichi Kogami, who was the mayor of Biei at that time, succeeded in excavating a hot spring. After many hardships, colourless hot water of 48°C spouted from a depth of 399m. It was named Shirogane Onsen, as Kogami narrated that, 'This hot spring is so precious that it should be called platinum (shirogane means white gold) that wells up from the deep underground.'

Activities & attractions

Shirogane Blue Pond

A mysterious pond where the water surface looks blue. During the disaster prevention work on Mt. Tokachi, the water that accumulated on the dam gave a mysterious blue colour, and together with the decaying larch trees, it created a fairytale - like landscape. At some point, it became to be called 'Blue Pond'. The dead larch trees create an imaginary atmosphere.

Activities & attractions

Furano Nature School

Mr Sou Kuramoto is supervising the various experience programs at Furano Nature School. In addition to the Earth Road where visitors can experience the history of Earth, they can explore unique trainings such as a forest program (tree planting/thinning activities) using the site of a former golf course, a primitive life experience, and a workshop on communication.

Activities & attractions

Furano Winery

Furano Wine is produced and marketed through a fully-fledged system of using local ingredients, brewing, up to sales, which is quite unique in Hokkaido. Visitors can join factory tours and tastings where they can learn about the history of quality improvement and the commitment to brewing. Wines are also for sale. The brick building on the mountainside overlooks a flower garden and the Furano Basin.

Unique venues

Activities & attractions

Furano Jam Garden

A farm that produces and sells fruits and vegetables and operates a jam factory. Here, guests can try making jam in addition to organizing parties at the cafe terrace.

Obihiro is a region where Japan's top-class agriculture sector is flourishing, nurtured by the vast land of the Tokachi Plain. Specifically, the region is said to be a food supply base for Japan that is abundant with the production of agricultural and livestock products and their processed goods. Excursions to harvest agricultural products and to experience farming at large-scale upland farms are possible here. The pioneering spirit that has opened up the land is inherited up to today and remains a source supporting the local industry and culture. As there are plenty of unique venues such as plazas and beautiful gardens where visitors can use the wide open and refreshing outdoor space while experiencing the Tokachi spirit. The region offers opportunities for satisfying MICE during each of the four seasons. Campfield, one of Japan's leading outdoor companies, is also a popular training facility for team building.

-  Unique venues
-  Activities & attractions

Manabe Garden

Having been importing, nursing and selling trees, this Unique garden of 82,500 square meters has been open to the venues public since 1966. It is also known as Japan's first conifer garden. It is a showroom - like botanical garden where visitors can see how the collection of thousands of varieties of plants that have been collected from all over the world for over 60 years, is literally a growing Activities & attraction attraction.

Unique venues

Activities & attractions

Accommodation

Tokachinuppuku Garden

A garden of about 40,000 square meters including a Japanese-style garden, a Western - style garden, and a natural forest. The Nupuku River that originates from the underground water of the Hidaka Mountains flows through the site. There are also opportunities for horse riding, feeding rainbow trout, and a field where you can touch and interact with ponies and rabbits. Additionally, there are restaurant and accommodation facilities.

Unique venues

Activities & attractions

Accommodation

Tokachi Poroshiri Campfield

A campfield located at the foot of Mt. Tokachiporoshiri in the Hidaka Mountains. When heading up the hill that is adjacent to the Yachiyo farm, a scenery of the magnificently cultivated land spreads out. The camp field strives to preserve and restore nature, and there are facilities for nature processing workshops, an auto campground, and park golf courses. Glamping outdoor meetings are also possible.

Unique venues

Activities & attractions

Kofuku Happiness station

One of the famous two train stations, the Aikoku (meaning patriotism) Station and Kofuku (meaning happiness) Station known for the catchphrase 'From patriotism to happiness'. In former times, the two stations were connected by the old Japanese National Railways Hiroo Line. The 'Kofuku Yuki', or Happiness Bound, ticket is still popular as a passport for happiness due to its fortunate naming. The station premises, which makes one happy just by visiting, preserves two diesel cars, the platform, and the station building that were used until the line was abandoned. It is now known as 'Railway Park'. From the end of April to the end of November, the facility holds 'Kofuku Station Happy Ceremonies' where you can join an imitation wedding ceremony.

Unique venues

Activities & attractions

Obihiro City Livestock Training Center (Cowbell House)

This facility is located in the corner of a large farm and has a restaurant, which is popular for its menu using Tokachi beef, black pork, vegetables, and dairy products. Lunch boxes can be ordered, while accommodation and training facilities are also available.

Unique venues

Activities & attractions

North Aikoku Exchange Square

Being an outdoor facility suitable for large-scale events, it has a partially covered exhibition space, a grass lawn field, and a multipurpose plaza. The International Agricultural Machinery Show is held here once every four years, attracting about 200,000 visitors.

Kushiro/Akan

Cities where abundant nature and urban life coexist, and where the climate is pleasant.

AREA 03

The climate is characterized by cool summers and little rain with an average maximum temperature of 20 to 22 °C and no cedar pollen that cause hay fever. The area is unique in the world with two national parks: the vast Kushiro-shitsugen wetland and the Akan National Park, where ancient virgin forests remain. There are various activities such as nature tours in the Kushiro wetlands, adventure tourism in Akan Mashu National Park, and sunset cruises to spot one of the world's three major sunsets. The Lake Akan Ainu culture tours combined with nature excursions starting here are also popular. Kushiro city centre is a compact city that is ideal for MICE, with multiple facilities within a 10 minute walk and hotels and restaurants nearby. Original MICE programs can be realized such as unique food and cross-cultural activities in an excellent natural environment that represents Japan.

MICE venues

Kushiro Tourism and International Relations Center

This facility serves as a hub for various economic and cultural exchanges, both in Japan and overseas. The large hall, which can accommodate 1,500 people, is fully equipped with a flat floor on top of a spacious entrance, a simultaneous interpretation booth, and audio - visual equipment.

Activities & attractions

The world's three major sunsets

The sunset at Kushiro Port is said to be one of the 'three major sunsets in the world', along with Manila in the Philippines and Bali in Indonesia. Especially in autumn when the air is clear, the skies feel high and people can enjoy a fabulous sunset.

MICE venues

Kushiro Fisherman's Wharf EGG

EGG MICE venue is a symbol of Kushiro's waterfront and next to MOO, where people enjoy restaurants and shopping. It is full of flowers and greenery throughout the year and is a popular space to relax in the sun and near the water. The facility can be used for concerts and exhibitions. Stage equipment as well as chairs, acoustic boards, pianos, etc. can be rented free of charge.

Coach & Four Kushiro Culture Hall (Kushiro Community Cultural Center)

MICE venues

A cultural facility featuring a large hall with a capacity of 1,524 persons, a small hall with a capacity of 372 persons, an exhibition hall, a meeting room, a practice room for piano and ballet, as well as a Japanesestyle room. Orchestra concerts are also held here.

Activities & attractions

Kushiro - shitsugen Wetland Activities

Rich in nature, the Kushiro wetlands and the Kushiro River area are excellent for a variety of activities such as nature tours and canoeing with professional guides.

Activities & attractions

Lake Akan Ainu Theatre / Ainu Traditional Dance

Ainu traditional dance has been registered as a UNESCO World Intangible Cultural Heritage, an important intangible cultural property of Japan. At the Lake Akan Ainu Theatre 'Ikorō', various dances that are handed down in Eastern Hokkaido since ancient times are performed. The songs and dances originating from the daily lives of the Ainu express joy and sadness with their bodies. The dances are not only enjoyable for themselves but also expressions that give respect and gratitude to the Kamui gods and the ancestors.

MICE venues

Lake Akan Marimukan

This is the core facility of the Akanko Onsen Hot Spring area surrounded by the magnificent virgin forests of Akan. It has 5 rooms, including a multipurpose hall that can hosts meetings for up to 480 people, and meeting rooms. The meeting rooms and reception halls of nearby hotels are also substantial, making the location ideal for organizing a hot spring resort MICE event.

Kitami City is famous for Loco Solare, a women's curling team that became a hot topic at the Pyeongchang Winter Olympics and as an awarded buzzword in 2018. Visitors can enjoy the beautiful scenery of each season from the Sea of Okhotsk to the countryside of the hills, which stretches about 110km from the coast of Okhotsk in the east to the west. Nature tours starting in Kitami such as drift ice watching are unique. There are two curling halls in the city and curling here is popular as a training program for team building. As an industrial city in Eastern Hokkaido with rich nature stretching from the sea to the mountain, a variety of programs can be offered, such as excursions and training of industry-academia collaboration utilizing the Kitami Institute of Technology, and industrial heritage and activity programs related to the mint, once proudly said to be the best in the world.

Unique venues

Okhotsk Beer Factory

In 1994, Okhotsk Beer was the first beer manufacturer in Japan to obtain an in-house license after the revision of the Liquor Tax Law as a pioneer of local craft beer. At the restaurant, guests can enjoy all-malt fresh authentic beer made in accordance with the German Reinheits gebot and a variety of dishes prepared with local ingredients. Matching the number of people, the facility has large and small private rooms.

MICE venues

Kitami Arts and Culture Hall (Kita·Art21)

Kitami Arts & Culture Hall (Kita·Art21) is a facility that has 13 rooms, including a conference room and studio, as well as a music hall that can accommodate 576 people and a medium hall for 420 people.

Activities & attractions

Northern Arc Resort Fat Bike

Ride a fat bike with thick tires on a cart road at a golf course buried in snow. It is possible at Northern Arc Resort in Tanno Town. There are also options such as skying and snow tubes where one can slide on a round tube.

Activities & attractions

Curling

Having supported the Loco Solare team that won a bronze medal in the Pyeongchang Winter Olympics, curling can be enjoyed under the guidance of instructors at two facilities. The Advics Tokoro Curling Hall is with 6 sheets Japan's largest competition facility, and the Argographics Kita mi Curling Hall is newly built in 2020. Curling is also popular as a team- building training program.

Activities & attractions

Kitami Mint Memorial Hall / Mint Distillation + Hand-cream making workshop

At the Kitami Mint Memorial Hall and the Light Distillery Museum, visitors can extract essential oils from the herb Kitami Mint using a small distiller, while learning about the history of Kitami Mint, which has made a significant contribution to the development of the Kitami region. The facility is also implementing a workshop for making aroma cream using the oil as a material.

Activities & attractions

Beef BBQ festival in the harsh coldness of Kitami

This event started with the idea from people who were transferred to the region for work to promote the severe cold of Kitami and its beef BBQ culture. Kitami's yakiniku beef BBQ is known to make the best use of the taste of the meat without much seasoning. Under the frigid night sky, the residents who enjoy the meat will be excited without resting their chopsticks. With 70 yakin iku beef BBQ restaurants in the city, Kitami has the largest number of yakin iku restaurants per citizen in Hokkaido.

Pick Out

In addition to the Advics Tokoro Curling Hall, this venue was established in October 2020 as a year-round curling hall. In collaboration with the public Kitami Institute of Technology, the hall has become a facility with Japan's greatest hidden challenges having introduced a competitiveness improvement support system that uses the results of winter sports science research. It is widely used for the training of top teams from both Japan and overseas, various curling classes, school classes, training programs for working adults, and activities for tourists.
